the Facebook widget

the code

```
<script
src="http://static.ak.connect.facebook.c
om/js/api_lib/v0.4/FeatureLoader.js.php"
type="text/javascript"></script>

<script
type="text/javascript">FB.init("1e5adb74
6021643eb75f30d76f76dc3a");</script>

<fb:fan profile_id="75124832476"
stream="1" connections="6"
width="180" height=600></fb:fan>
<div style="font-size:10px; padding-
left:10px">

<a
href="http://www.facebook.com/NatureR
ocks" target="NR">Nature Rocks</a> on
Facebook. Get <a
href="www.naturerocks.org/uploadedFil
es/NatureRocks_FacebookWidget.pdf"
target=blank>this widget</a> for your
blog or website!</div>
```

Changing the look

1. Edit the attributes in the middle of the code. In the `<fb>` tag.
2. For no messages set `stream="0"`
3. For number of fans set `connections`. (ex. To see 9 fans: `connections="9"`)
4. To make taller or shorter, change `height`.
5. To make wider or narrower, change `width`.

Feature Nature Rocks!

WHY

1. Build the Nature Rocks community.
2. Keep in touch more easily with what's happening with Nature Rocks.
3. Be a super-duper Nature Rocks fan!

HOW

1. Find a good place on your website. It works best as a sidebar – right or left.
2. If you have more or less space, the height and width is adjustable.
3. Choose whether to show photos or the messages.
4. Just copy the code on the left and use an editor if you want to customize it (or ask your webmaster).
5. Put it in your website!
6. You can find more details on options in Facebook. Go to the NatureRocks page and click "Add Fan box to your site" in the upper left:
